The Media Streaming Journal

Covering Audio and Video Internet Broadcasting

Brought To You By

Welcome to The Media Streaming Journal

Greetings,

As we close out another year, it is important to remember those people that have made contributions to our lives. Tomorrow is never guaranteed or promised, so it is important to cherish those that cherish us.

As I have repeatedly said in the past, it is vital that every broadcaster become knowledgeable not only in the software applications that run our stations but in the actual "mechanics" and processes that enable them to run. Knowledge goes hand in hand with experience to achieve a superior station operation.

Follow your dreams for they may take you on a journey you never thought possible.

May your walls know joy, may every room hold laughter, and every window open to great possibility.

Mary Anne Radmacher
